

## **Keyedin Solutions Launches Complete Project Management Solution for U.S. Market**

*KeyedinProjects Targets Rising Demand for More Controllable, Profitable Projects*

**MINNEAPOLIS, Minn.** — June 7, 2012 — Keyedin Solutions, a global SaaS (Software as a Service) solutions provider and consultancy, today announced the U.S. launch of *KeyedinProjects*. The on-demand project management software suite includes complete, scalable PSA (professional services automation), PMO (program/project management office) and PPM (project portfolio management) functionality for organizations of all sizes.

Companies across the globe are looking for more agile enterprise solutions that will help them work smarter and provide anytime, anywhere access without consuming IT resources or adding weight to the capital expense budget. Likewise, organizations that must manage multiple project and program initiatives with wide-ranging implications in cost, human resources, impact on customer relationships and profitability, have driven the need for increasingly more powerful and integrated project management solutions. Today, over 159 customers and over 26,000 users are accessing *KeyedinProjects* to manage their projects and programs.

*KeyedinProjects* gives these companies complete task control at the project level while delivering a unified, high-level solution for proposing, budgeting, forecasting, and giving leadership an actionable strategic view into all company projects. Companies can leverage *KeyedinProjects* to easily manage strategic project planning, resource scheduling, and timesheet and expense management at all levels of the organization. The completely integrated suite of on-demand business applications is ready for deployment to clients direct from Keyedin Solutions and via its new partner program, *Keyedin Connect*.

“The pressures of today’s economic environment have driven leaders to realize that they need a new kind of rigor to manage the successful execution of important projects and initiatives across their organizations,” said Lauri Klaus, CEO of Keyedin Solutions. “The success of projects, both at the strategic and tactical level, can dramatically impact the underlying value of an enterprise, its cash flows, its relationships with customers, and the morale of its employees. For teams facing these high stakes, *KeyedinProjects* provides the definitive answer.”

*KeyedinProjects* supports organizations of all sizes and offers a Small Business Edition, Professional Edition and Enterprise Edition of the software. A free trial of the Small Business Edition and a hybrid Professional/Enterprise Edition are available for download from the company’s website at [www.keyedin.com](http://www.keyedin.com).

**About KeyedIn Solutions:**

KeyedIn<sup>®</sup> Solutions was founded by veteran ERP industry executives to transform the traditional enterprise software systems market through a suite of integrated business applications delivered on a true SaaS platform and a consulting organization rich in business, industry and IT expertise. KeyedIn *SaaS Solutions* replace rigid, on-premise enterprise systems in specialized vertical markets with more agile, feature-rich and cost-effective .NET applications that scale to any environment. The KeyedIn *Consulting Group* provides consulting services around existing or planned systems, helping organizations achieve a strong return on their IT investment and realize a true business advantage in their market. Whether engaged independently, or in conjunction with the company's leading-edge technology platform, the KeyedIn *Consulting Group* delivers results for a wide range of industries worldwide.

Organizations look to KeyedIn Solutions for innovative, integrated business applications and results-driven consulting services delivered with integrity and a laser focus on their needs. You should too. Learn more at [www.keyedin.com](http://www.keyedin.com).
