

FOR IMMEDIATE RELEASE

KEYEDIN SOLUTIONS TAKES MAJORITY OWNERSHIP IN DATACOM INTERNATIONAL

MINNEAPOLIS, Minnesota, January 9, 2012 . Keyedin Solutions is a brand-new international software and consulting company . and it's coming out of the gate strong by taking a majority ownership position in Datacom International, a leading provider of on-demand, fully integrated Cloud-based enterprise software.

Datacom and Keyedin share the same vision as to the dramatic impact that Cloud technologies will have on the enterprise software industry, and the resulting opportunity for new industry leaders to emerge,+stated Don Roepke, Datacom's Chairman and CEO.

The Datacom and Keyedin resources are very complementary,+added Roepke, and combined they provide a solid foundation from which to build a new industry leader.+

According to Keyedin Chairman of the Board George Klaus, Datacom has been on the team's radar since day one, given its leading position in the market, strong customer base and 100% Cloud offering.

We are excited for the opportunity to combine our experienced team with products and services that will again put our customers first, offering unmatched customer-facing services and a new approach to implementing business solutions,+explained Lauri Klaus, Keyedin CEO. This is the start of what will be a great new business culture.+

While Keyedin is new, the company founders have decades of experience in software design, project management, enterprise resource planning (ERP) and strategic consulting. As Chairman of the Board and the CEO of Epicor Software, George Klaus led the company from 30M to a valuation of 980M. Lauri Klaus was the EVP of WW Sales and Consulting at Epicor Software and led a team of over 1400 employees to year over year growth.

Keyedin's business model will leverage the synergies of initial acquisitions and allow the company to rapidly expand into new vertical markets, as well as increase its offerings to existing markets.

With Datacom, Keyedin has an enhanced ability to deliver software-as-a-service (SaaS) and consulting solutions that drive mid-sized companies' business performance. Datacom's strengths lie in ERP, CRM, accounting and supply-chain management . functions that round out Keyedin's offering of industry-leading, full-featured, user-friendly online ERP software applications and strategic consulting services. The result is a match made in high-tech heaven that will help clients streamline workflow, cut costs and increase their bottom lines.

About Keyedin Solutions:

Keyedin Solutions, Inc. was founded by a team of technology leaders with deep experience in developing and delivering technology applications in areas such as ERP, professional services automation and project management. The company offers both SaaS solutions and consulting services to help mid-market organizations gain control and visibility over their resource capability and deployment, streamline workflow processes, increase operational efficiency, and achieve cost savings and improved business performance.
