Keyedin[®] Partners with Sage to Add Real-time Accounting Solutions to its Cloud-based Manufacturing ERP

Keyedin Manufacturing ERP software clients gain instant visibility into their business with Sage Live's real-time processing, social collaboration and mobile capabilities

Minneapolis, MN (May 31, 2016) — Keyedin[®] Solutions, an innovator in aPaaS and SaaS-based business solutions, today announced its partnership with Sage, the market leader for integrated accounting, payroll and payment systems. Keyedin will integrate its Manufacturing Cloud ERP (enterprise resource planning) solution with the Sage Live cloud accounting solution.

Like Keyedin software, Sage Live was developed in the Cloud, for the Cloud, giving organizations of all sizes tools to more efficiently manage their business by reducing complexity, simplifying processes and quickly responding to customers. “Keyedin and Sage Live software complement each other in many ways,” noted Lauri Klaus, CEO and Co-Founder of Keyedin Solutions. “Keyedin leverages the Cloud to empower businesses of all sizes with flexible, affordable and highly configurable solutions – solutions that work the way our clients need them to work. With Sage Live, we are combining a market leading accounting system with Keyedin Manufacturing, giving clients a single system from which to fully manage their operations and securely run their business in the Cloud.”

In partnering with Sage and integrating Sage Live software, Keyedin Manufacturing Cloud ERP clients not only benefit from seamless integration to powerful accounting capabilities, but also gain instant access to real-time data, allowing them to make decisions quickly and manage their business from anywhere, using a smartphone, tablet or other supported device.

KeyedIn Manufacturing Cloud ERP is a supremely flexible, comprehensive business application that drives operational excellence for manufacturers by managing everything from an opportunity, quoting, sales order entry, estimating, and materials availability to production planning, scheduling, shipping, and invoicing the customer. Users can easily manage and access client, customer and supplier invoices, supplier payment, job costing data and more from KeyedIn Manufacturing through a fluid, real-time integration with Sage Live accounting software, all within a single application, creating a seamless user interface.

Alan Laing, EVP Partnerships and Alliances at Sage said, “Real-time information is crucial to manufacturers as they look to improve customer service and operations. The level of insight that Sage Live gives for business data coupled with the capabilities of KeyedIn Manufacturing Cloud ERP will bring a new level of control to manufacturers.”

More information on KeyedIn Manufacturing Cloud ERP with integrated Sage Live accounting software, and the ability to request a software demonstration is available at www.keyedin.com/mfg.

About KeyedIn® Solutions

KeyedIn Solutions helps organizations simplify business processes, improve performance and drive results through an innovative combination of aPaaS and SaaS business solutions. These applications were developed in the Cloud for the Cloud, to capitalize on the exclusive benefits of mobility, accessibility, and flexibility only the Cloud can offer.

The company's SaaS-based business systems include [KeyedIn Manufacturing](#), a configurable Cloud ERP software that drives operational excellence for manufacturers, and is designed exclusively for production manufacturing. [KeyedIn Projects](#) is a strategy-led and execution-driven project management solution that aligns organizations with complete visibility for effective Project Portfolio Management (PPM) as well as drives utilization, profitability and performance to achieve growth with Professional Services Automation (PSA). KeyedIn Konfigure™ aPaaS is transforming custom enterprise-level application development, building new business systems and system components with greater speed, agility, and innovation.

When businesses need results fast, they look to the Cloud – and turn to KeyedIn Solutions. You should too. Keep up with us at [KeyedIn Manufacturing](#), Twitter @KeyedInMFG; or LinkedIn: KeyedIn Solutions, Inc.

About Sage

Sage is the market leader for integrated accounting, payroll and payment systems, supporting the ambition of the world's entrepreneurs. Sage began as a small business in the UK 30 years ago and over 13,000 colleagues now support millions of entrepreneurs across 23 countries as they power the global economy. We reinvent and simplify business accounting through brilliant technology, working with a thriving community of entrepreneurs, business owners, tradespeople, accountants, partners and developers. And as a FTSE 100 business, we are active in supporting our local communities and invest in making a real difference through the philanthropy of the Sage Foundation.
